

## **21-GP1-179 Economic Impact Data Sheet**

Briefly summarize your proposal's primary economic impacts and benefits to building owners, tenants and businesses.

Additional cost for receptacle and circuit, eliminates cost for future conversion.

Provide your best estimate of the construction cost (or cost savings) of your code change proposal? (See OFM Life Cycle Cost [Analysis tool](#) and [Instructions](#); use these [Inputs](#). **Webinars on the tool can be found [Here](#) and [Here](#)**)

**\$0.33**/square foot / \$250 per receptacle.

Show calculations here, and list sources for costs/savings, or attach backup data pages

\$250 per receptacle. If stove is only gas appliance in a 750 sf apartment, then  
 $\$250/750 \text{ sf} = \$0.33/\text{sf}$

Provide your best estimate of the annual energy savings (or additional energy use) for your code change proposal?

**0 KWH**/ square foot

No associated energy savings.

Show calculations here, and list sources for energy savings estimates, or attach backup data pages

List any code enforcement time for additional plan review or inspections that your proposal will require, in hours per permit application:

(none)
